- It's working, it's working!
- We are fortunate to have an adequate water supply.
- We can address Idaho's water disputes without a shootout.

# ESPA Success Story

- Prior to 2019, constructed delivery works in the Milner Gooding Canal (Milepost 31 and Shoshone) could deliver about 900 cfs for recharge.
- In late 2019, the Water Board completed construction of delivery works in the North Side Canal (Wilson Canyon) that will deliver approximately 500 cfs.
- Another project now under construction in the spring of 2020 (Milepost 29) will increase the capacity of the Milner Gooding Canal to 1,200 cfs for recharge.
